---

This is a film preservative used to protect film and can also be found in roof paints, printing inks, and textiles.

### How can you avoid contact with this allergen?

---

Avoid products that list any of the following names in the ingredients:

- 2-octyl-2 H-isothiazol-3-one
- Octhilinon
- OIT
- OI

### What are some products that may contain this allergen?

---

Household Products

- Clothing
- Water-based paints and lacquers
- Leather products: Shoes, sofas, watch straps
- Acrylic sealants

For additional information about products that might contain this allergen, visit the Consumer Product Information Database ([householdproducts.nlm.nih.gov](http://householdproducts.nlm.nih.gov)) online at the United States National Library of Medicine. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
