

Cetralconium chloride

CAS#: 122-18-9

Where is this allergen found?

This substance is found in antiseptics that kill bacteria or fungi that might affect sore or broken skin in the mouth. It is used to remove pain from denture irritation, teething, cold sores, and mouth ulcers.

How can you avoid contact with this allergen?

Avoid products that list any of the following names in the ingredients:

- A13-03464
- Acinol
- Ammonium, benzylhexadecyldimethyl-, chloride
- Ammonyx G
- Ammonyx T
- Baktonium
- Banicol
- Benzaletas
- Benzenemethanaminium, N-hexadecyl, N,N-dimethyl-, chloride
- Benzenemethanaminium, N-hexadecylN,N-dimethyl-, chloride
- Benzylcetyldimethylammonium chloride
- Benzyltrimethylammonium chloride
- Benzyltrimethylhexadecylammonium chloride
- Benzylhexadecyldimethylammonium chloride
- Bicetonium
- Bonjela
- Cdbac
- Cetalconio cloruro
- Cetalconio cloruro [DCIT]
- Cetalkonii chloridum
- Cetalkonii chloridum [INN-Latin]
- Cetalkonium chloride
- Cetol
- Cetyl zephiran

- Cetylbenzyltrimethylammonium chloride
- Cetyltrimethylbenzylammonium chloride
- Cetylon
- Chlorure de cetalkonium
- Chlorure de cetalkonium [INN-French]
- Cloruro de cetalconio
- Cloruro de cetalconio [INN-Spanish]
- Dehyquart CBB
- Dehyquart CDB
- Dimethylbenzylcetyltrimethylammonium chloride
- Dimethylbenzylhexadecyltrimethylammonium chloride
- Dmcbac
- EINECS 204-526-3
- Hexadecylbenzyltrimethylammonium chloride
- Hexadecyltrimethylbenzylammonium chloride
- N-Benzyl-N-cetyltrimethylammonium chloride
- NSC 32942
- Pharycidin concentrate
- Rodalon
- Spilan
- Tetraseptan
- WIN 357
- Winzer solution
- Zettyn
- n-Hexadecyltrimethylbenzylammonium chloride

What are some products that may contain this allergen?

Antiseptics

Pain Reliever Gels

For additional information about products that might contain this allergen, visit the Consumer Product Information Database (householdproducts.nlm.nih.gov) online at the United States National Library of Medicine. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
