

the art and science of smart patch testing™

## PA464: Hexachlorophene CAS#: 70-30-4

### Patient Information

Your patch test result indicates that you have a contact allergy to hexachlorophene. This contact allergy may cause your skin to react when it is exposed to this substance although it may take several days for the symptoms to appear. Typical symptoms include redness, swelling, itching, and fluid-filled blisters.

### Where is hexachlorophene found?

Hexachlorophene is used as a topical anti-infective, anti-bacterial agent in medicines. It is also found in soaps, toothpastes, and in the agricultural industry as a soil fungicide, plant bactericide, and acaricide.

### How can you avoid contact with hexachlorophene?

Avoid products that list any of the following names in the ingredients:

- 2,2',3,3',5,5'-Hexachloro-6,6'-dihydroxydiphenylmethane
- 2,2'-Dihydroxy-3,3',5,5',6,6'-hexachlorodiphenylmethane
- 2,2'-Dihydroxy-3,5,6,3',5',6'-hexachlorodiphenylmethane
- 2,2'-Methylenebis(3,4,6-trichlorophenol)
- 4-06-00-06659 (Beilstein Handbook Reference)
- A13-02372
- AT 7
- Acigena
- Almederm
- Armohex
- At-17
- B & b Flea Kontroller for Dogs Only
- B 32 (VAN)
- B32
- BRN 2064407
- Bilevon
- Bis(2-hydroxy-3,5,6-trichlorophenyl)methane
- Bis(3,5,6-trichloro-2-hydroxyphenyl)methane
- Bis-2,3,5-trichloro-6-hydroxyphenylmethan
- Bis-2,3,5-trichloro-6-hydroxyphenylmethan [Czech]
- Blockade Anti Bacterial Finish
- Brevity Blue Liquid Bacteriostatic
- Scouring Cream
- Brevity Blue Liquid Sanitizing
- Scouring Cream
- CCRIS 331
- Caswell No. 566
- Compound G-11
- Cotofilm
- Dermadex
- Dial
- Distodin

## What are some products that may contain hexachlorophene?

### Soaps

### Toothpastes

### Topical Medications

\*For additional information about products that might contain **hexachlorophene**, go to the Household Product Database online (<http://householdproducts.nlm.nih.gov>) at the United States National Library of Medicine. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
