RC285: Tetramethylthiuram monosulphide (TMTM)

CAS#: 97-74-5

Patient Information

Your patch test result indicates that you have a contact allergy to tetramethylthiuram monosulphide (TMTM). This contact allergy may cause your skin to react when it is exposed to this substance although it may take several days for the symptoms to appear. Typical symptoms include redness, swelling, itching and fluid-filled blisters.

Where is tetramethylthiuram monosulphide (TMTM) found?

This substance is an accelerator found in the rubber industry.

How can you avoid contact with tetramethylthiuram monosulphide (TMTM)?

Avoid products that list any of the following names in the ingredients:

- 4-04-00-00238 (Beilstein Handbook Reference)
- AI3-00984
- Aceto TMTM
- BRN 1775650
- Bis(dimethylthiocarbamoyl) sulfide
- Bis(dimethylthiocarbamoyl)sulfide
- CP 2113
- Carbamic acid, dimethyldithio-, anhydrosulfide
- Carbamic anhydride, tetramethyltrithio-
- Carbamodithioic acid, dimethyl-, anhydrosulfide
- Cyuram MS
- EINECS 202-605-7
- Ekagom TM
- Formamide, 1,1'-thiobis(N,N-dimethylthio-HSDB 2902
- Mono-thiurad
- Monosulfure de tetramethylthiurame
- Monosulfure de tetramethylthiurame [French]
- Monothiuram
- N,N,N',N' Tetramethylthiuram monosulfide
- NSC 3400
- NSC 4767
- Pennac MS Sulfide, bis((dimethylamino)thioxomethyl)
- TMTM
- TMTMS
- Tetramethyldithiocarbamic acid anhydrosulfide
- Tetramethylthiuram monosulfide
- Tetramethylthiuram sulfide
- Tetramethylthiuramide sulfide
- Tetramethylthiurammonium sulfide
- Tetramethylthiuramonosulfide
- Thiuram MM
- Thiuram monosulfide, tetramethyl-
- USAF B-32
- USAF EK-P-6255Unads
- Vulkacit MS
- Vulkacit Thiuram MS
- Vulkacit thiuram MS/C

What are some products that may contain tetramethylthiuram monosulphide (TMTM)?

Rubber Products

*For additional information about products that might contain **tetramethylthiuram monosulphide (TMTM)**, go to the Household Product Database online (<http://householdproducts.nlm.nih.gov>) at the United States National Library of Medicine. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
