

Streptomycin sulphate

CAS#: 3810-74-0

Where is this allergen found?

Streptomycin sulphate is used as an antibiotic to treat infections such as tuberculosis. It is also used in veterinary medicine as treatment against bacteria in large animals. This substance can be found in pesticides to guard against the growth of bacteria, fungi, and algae in fruits, vegetables, seeds, and other crops.

How can you avoid contact with this allergen?

Avoid products that list any of the following names in the ingredients:

- AI3-50158
- AS-15
- Agri-Strep
- Agrimycin 17
- Agristrep
- Ambistryn S
- Bis-(4-O-(2-O-(2-deoxy-2-methylamino-alpha-L-glucopyranosyl)-alpha-L-streptosyl)-L-streptidin)-trisulfat
- CCRIS 5934
- Caswell No. 804A
- EINECS 223-286-0
- EPA Pesticide Chemical Code 006310
- Estreptomicina
- Estreptopanto
- NSC 14083
- Phytomycin
- Plantomycin
- Streoikub
- Streotitgebat
- Strep-gran
- Strepcin
- Strepsulfat

- Streptomycin A sulfate
- Streptomycin sesquisulfate
- Streptomycin sulfate
- Streptomycin sulfate (2:3) (salt)
- Streptomycin sulphate
- Streptomycin sulphate B.P
- Streptomycinium sulfuricum
- Streptomyzinsulfat
- Streptorex
- Strepvet
- Strycin
- Vetstrep

What are some products that may contain this allergen?

Prescription Medications

Pesticides

For additional information about products that might contain this allergen, visit the Consumer Product Information Database (householdproducts.nlm.nih.gov) online at the United States National Library of Medicine. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
