

Hydroxyethyl-P-Phenylenediamine Sulfate

CAS#: 93841-25-9

Where is this allergen found?

Hydroxyethyl-P-Phenylenediamine Sulfate is used as an oxidative hair coloring agent.

How can you avoid contact with this allergen?

Avoid products that list any of the following names in the ingredients:

- 2-(2,5-diaminophenyl)ethanol;sulfuric acid (IUPAC)
- 2-(2,5-Diaminophenyl)ethanol sulfate
- Benzeneethanol
- N,N-Bis(2-Hydroxyethyl)-p-Phenylenediamine Sulfate

What are some products that may contain this allergen?

Hydroxyethyl-P-Phenylenediamine Sulfate is a hair dye ingredient used in the formulation of permanent hair dyes and colors.

For additional information about products that might contain this allergen, visit the Consumer Product Information Database. These lists are brief and provide just a few examples. They are not comprehensive. Product formulations also change frequently. Read product labels carefully and talk to your doctor if you have any questions. These are general guidelines. Talk to your doctor for more specific instructions.
